International Research Group on Colour Vision Deficiencies. Symposium
(10th : 1989 : Cagliari, Italy)

Colour vision deficiencies X : proceedings of the Tenth Symposium
of the International Research Group on Colour Deficiencies, held in
Cagliari, Italy, 25-28 June 1989 / edited by B. Drum, J.D. Moreland,
A. Serra.

p. cm. -- (Documenta ophthalmologica. Proceedings series ; 54)

Includes bibliographical references and index.

ISBN 0-7923-0948-0 (U.S. : HB : acid free paper)

Contents

Preface	xiii
Obituaries	
Guy Verriest: A. Roth, Geneva, Switzerland	xv
Guy Verriest: W. Jaeger, Heidelberg, West Germany	xvii
Guy Verriest: M. Marré, Dresden, East Germany	xix
André Dubois-Poulsen: J.L. Vola, Marseille, France	xxiii
Hans Kalmus: J.D. Moreland, Keele, Staffordshire, U.K.	xxv

PART ONE. STIMULUS FIELD SIZE EFFECTS IN COLOUR VISION

1. Y. Ohta (Invited Paper): Tokyo, Japan Change in color vision for prototype anomaloscope with a visual field of 2° to 20°	3
2. W. Jaeger, H. Krastel and G. Marat: Heidelberg, West Germany Large field spectral matches in dichromats	13
3. A. Iivanainen and J. Rovamo: Helsinki, Finland The effect of stimulus size on the detection of chromatic deviations from white and yellow across the human visual field	21
4. V.J. Honson and S.J. Dain: Kensington, Australia The effects of size and analysis method on the performance of the Farnsworth-Munsell D-15 test	29
5. K. Knoblauch, M. Fischer, N. Robillard, I.S. Grunwald and E. Faye: New York, NY, U.S.A. The effect of test element size on performance of the D-15 in age-related maculopathy and congenital color deficiency	37
6. H. Plendl, W. Paulus and S. Krafczyk: Munich, West Germany Effect of field size on the colour evoked potentials and the electroretinogram	47
7. J.J. Kulikowski, I.J. Murray and M.H.A. Russell: Manchester, U.K. Effect of stimulus size on chromatic and achromatic VEPs	51

PART TWO. NEW COLOUR VISION TESTS, EXAMINATION
METHODS AND DATA ANALYSES

8. J.D. Mollon, S. Astell and J.P. Reffin: Cambridge, U.K.
A minimalist test of colour vision 59
9. J.P. Reffin, S. Astell and J.D. Mollon: Cambridge, U.K.
Trials of a computer-controlled colour vision test that pre-
serves the advantages of pseudoisochromatic plates 69
10. B. Drum, C. Sternheim and M. Severns: Baltimore, College Park
and Gaithersburg, MD, U.S.A.
Anomaloscope plate test field trial: comparisons with four
other tests of congenital red-green color vision deficiencies 77
11. J.K. Hovis and H. Dolman: Waterloo, Ontario, Canada.
Estimating chromatic thresholds 85
12. G. Derefeldt, C-E. Hedin, K-O. Skoog and G. Verriest: Linkö-
ping, Sweden and Ghent, Belgium
A VDU colour vision test for congenital colour vision defi-
ciencies 95
13. G. Verriest, F.E. Sucs and A. Uvijls: Ghent and Brussels,
Belgium
Spectral and flicker sensitivity functions with a fibre optic
non-Maxwellian view system 107
14. R. Fletcher; London, U.K. and Kongsberg Ingenør Høgskole,
Norway
A modified lantern test 111
15. M. Aguilar, M.L.F. de Mattiello and D. Ribas: Buenos Aires,
Argentina
Fusion chromatic and temporal frequencies in normal and
anomalous observers 115
16. M.L.F. de Mattiello and A. Gonella: Buenos Aires, Argentina
A clinical evaluation of the lightness and contrast vision tests 119
17. S.J. Dain and A.J. Adams: Berkeley, CA, U.S.A. and New South
Wales, Australia
Evaluation of the Adams desaturated D-15 test with con-
genital color vision defects 125
18. H. Krastel, H. Gehrung, K. Dax and K. Rohrschneider: Heidel-
berg, West Germany
Clinical application of the Heidelberg anomaloscope 135
19. M. Pelizzone, J. Sommerhalder, A. Roth and D. Hermès:
Geneva, Switzerland
Automated Rayleigh and Moreland matches on a computer-
controlled anomaloscope 151
20. M. Marré, E. Marré and T. Eckardt: Dresden, East Germany
Evaluation of the SPP-II test 161
21. J.A.M. van Everdingen, V.C. Smith and J. Pokorny: Chicago, IL,
U.S.A.

- Sensitivity of tritan screening tests as evaluated in normals at reduced levels of illumination 167
22. V.C. Smith, J.A.M. van Everdingen and J. Pokorny: Chicago, IL, U.S.A.
Sensitivity of arrangement tests as evaluated in normals at reduced levels of illumination 177
23. S.J. Dain, M.O. Scase and D.H. Foster: Keele, Staffordshire, U.K.
An assessment of the 'mesopization' model of blue-yellow colour vision defects 187
24. P. Grützner, H. Krastel and C. Seybold: Darmstadt and Heidelberg, West Germany
Validation of pseudo-isochromatic plates by chromatic acuity 199
25. K. Hamano, T. Motohashi, H. Kudo and Y. Ohta: Tokyo, Japan
Study of congenital color defects using the D&H color rule 205
26. K. Kitahara, T. Okabe, K. Mihara and A. Kandatsu: Tokyo, Japan
Theoretical patterns of the panel D-15 test in congenital red-green dichromats 215
27. T. Okabe, A. Kandatsu, J. Noji and K. Kitahara: Tokyo, Japan
The use of the panel D-15 test in estimating the convergence point for deuteranopia 223
28. T. Steinschneider and O. Polotsky: Jerusalem, Israel
Combined computer program for the Farnsworth D-15 and Roth 28-hue tests 229
29. M. Marré, E. Marré, P. Mierdel and T. Eckardt: Dresden, East Germany
Computerized assessment of the FM 100-hue test in acquired color vision defects 235
30. O. Lagerlöf: Stockholm, Sweden
The Farnsworth-Munsell 100-hue test in clinical practice 241
31. F. Zisman, K.R. Zisman and M.G. Harris: Berkeley and Hercules, CA, U.S.A.
Utility and transmissions of therapeutically tinted contact lenses 251
32. G. de'Gennaro, A. Senese and M. Vitale: Napoli, Italy
Orientation and selection of professions using computerized colour tests 257
33. J. Leid: Pau, France
Clinical perspectives in colour 261

PART THREE. NORMAL COLOUR VISION

34. J. Birch, A. Young and S. David: London, U.K.
Variations in normal trichromatism 267

35. R.A. Humanski and S.K. Shevell; Chicago, IL, U.S.A.
Factors contributing to differences in Rayleigh matches of normal trichromats 273
36. W. Verdon and G. Haegerstrom-Portnoy; Berkeley, CA, U.S.A.
Chromatic properties of dichoptic Westheimer functions 285
37. M.L.F. de Mattiello and J. Perez Carpinell; Buenos Aires, Argentina and Valencia, Spain
Retinal and cortical sensitivity to different chromatic stimuli 295
38. S.L. Buck, K. Bonnelle, P. Zohn and R. Knight; Seattle, WA, U.S.A.
Size and sensitivity scaling of π_4 and π_5 301
39. T. Knottenberg and H. Scheibner; Düsseldorf, West Germany
Approaching the Abney effect within linear opponent-color vision 315
40. H. Krastel, W. Jaeger, S. Zimmermann, B. Heckmann and M. Krystek; Heidelberg and Braunschweig, West Germany
Systematics of human photopic spectral sensitivity 323
41. M.A. Crognale, G.H. Jacobs and J. Neitz; Santa Barbara, CA, U.S.A.
Flicker photometric ERG measurements of short wavelength sensitive cones 341
42. J.D. Moreland, E. Torczynski and R. Tripathi; Bradford, U.K. and Chicago, IL, U.S.A.
Rayleigh and Moreland matches in the ageing eye 347
43. A. Roth, M. Pelizzone, J. Sommerhalder, D. Hermès and F. Simona; Geneva, Switzerland
The two equation method. III. Results in normal subjects above 50 years of age. Correlation with lens opacity 353
44. P. Gouras; New York, NY, U.S.A.
Modeling chromatic contrast detectors in the primate visual system 361

PART FOUR. CONGENITAL COLOUR VISION DEFICIENCIES

45. M. Müller, C.R. Cavonius and J.D. Mollon; Dortmund, West Germany and Cambridge, U.K.
Constructing the color space of the deuteranomalous observer 377
46. T. Kremer and H. Scheibner; Düsseldorf, West Germany
Deuteranomalous opponent-colour vision including the Abney effect 389
47. M. Neitz, J. Neitz and G.H. Jacobs; Santa Barbara, CA, U.S.A.
Relationship between cone pigments and genes in deuteranomalous subjects 397

48. G.H. Jacobs and J. Neitz: Santa Barbara, CA, U.S.A.
Deuteranope spectral sensitivity measured with ERG flicker photometry 405
49. F. Viénot and A. Chiron: Paris, France
Mesopic luminous matches of protanopic and deuteranopic observers 413
50. A. Roth, F. Paccolat, D. Hermès, M. Pelizzone, D. Klein, R. Feil and J.-L. Mandel: Geneva, Switzerland and Strasbourg, France
Five generations of a protan+deutan family: genealogy, color vision and genomic DNA 421
51. P.G. Gallo and M.P. Nardella: Padua, Italy
Colour vision deficiencies in secondary school students in Italy 429
52. M.O. Scase, D.H. Foster, W.P. Honan and J.R. Heron: Keele and Stoke-on-Trent, Staffordshire, U.K.
A case of unilateral blue colour vision loss. 441
53. L.N. Went, J.A. Oosterhuis and M. van Schooneveld: Leiden and Amsterdam, The Netherlands
A large family with a dominant cone dystrophy revealing prodromally a severe tritan defect 451
54. W.H. Swanson: Dallas, TX, U.S.A.
Heterochromatic modulation photometry in heterozygous carriers of congenital color defects 457
55. M. Fossarello, S. Solarino, I. Zucca, M. Piscitelli, M. Piu, A. Piras and A. Serra: Cagliari, Italy
Colour discrimination in congenital stationary night blindness 473
56. A. Serra, M. Fossarello, I. Zucca, G. Puxeddu, C.M. Dessy, A. Pitzus and C. Palmas: Cagliari, Italy
Genetic study of Sardinian families with G6PD deficiency and colour vision defects 479

PART FIVE. ACQUIRED COLOUR VISION DEFICIENCIES:
RETINITIS PIGMENTOSA AND DIABETES MELLITUS

57. G. Verriest, F.E. Sucs and A. Uvijls: Ghent and Brussels, Belgium
Spectral and flicker sensitivity functions in retinitis pigmentosa with a fibre optic non-Maxwellian view system 485
58. A. Serra, I. Zucca, M. D'Atri, M. Piscitelli, M. Piu, A. Mulas and G. Puxeddu: Cagliari, Italy
Visual function implications of tinted glasses in patients affected by retinitis pigmentosa 493
59. M. Fossarello, I. Zucca, M. Piscitelli, S. Mulas, A. Mulas, C.M. Dessy, A. Campurra and A. Serra: Cagliari, Italy

- The effect of hyperbaric oxygen therapy on colour discrimination and fluorescein angiography in edematous maculopathies 501
60. J. Birch, A.E. Ariffin and A. Kurtz: London, U.K.
Colour vision screening for the detection of diabetic retinopathy 507
61. R. Fletcher: London, U.K.
Colour perception warning for self-testing diabetics 511
62. O. Lagerlöf: Stockholm, Sweden
Color vision in diabetics 515
63. M. Mäntyjärvi: Kuopio, Finland
Nagel anomaloscope findings in diabetic school children 523
64. A.E. Ariffin, J. Birch, P.J. Polkinghorne and C.R. Canning: London, U.K.
Colour vision changes following pan-retinal photocoagulation with the dye laser 529

PART SIX. ACQUIRED COLOUR VISION DEFICIENCIES:
OPTIC NERVE DISORDERS

65. A.J. Adams, C.A. Johnson and R.A. Lewis: Berkeley and Davis, CA, U.S.A.
S cone pathway sensitivity loss in ocular hypertension and early glaucoma has nerve fiber bundle pattern 535
66. T. Steinschneider and U. Ticho: Jerusalem, Israel
Correlation between results of 28-hue test and loss of visual field in glaucoma (preliminary results) 543
67. F. Zwas, D.H. Shin and P. McKinnon: Detroit, MI, U.S.A.
Early spectral sensitivity changes in unilateral glaucoma 551
68. K. Oyama, K. Kitahara, G. Hisato and R. Tamaki: Tokyo, Japan
The characteristics of color vision defects in optic nerve injuries 561
69. W. Paulus and H. Plendl: Munich, West Germany
Colour vision defects in optic nerve compression tested with the D&H colour rule 569
70. M.H.A. Russell, I.J. Murray, R.A. Metcalfe and J.J. Kulikowski: Manchester, U.K.
Chromatic and achromatic function in multiple sclerosis; VEPs and psychophysics 573

PART SEVEN. ACQUIRED COLOUR VISION DEFICIENCIES:
MISCELLANEOUS

71. H. Zwick, D.O. Robbins, S.B. Reynolds, D.J. Lund, S.T.

Schuschereba, R.C. Long and M. Nawim: San Francisco, CA, and Delaware, OH, U.S.A. Effects of small spot foveal exposure on spatial vision and ERG spectral sensitivity	581
72. A. Bayer, E. Zrenner and W. Paulus: Munich and Tübingen, West Germany Colour vision deficiencies induced by the anticonvulsants phenytoin and carbamazepine	599
73. G. Staurenghi, A. Porta, A. Autelitano, N. Orzalesi, P. Padovese, D. Brancaccio, V. Scaioli, F. Panzica and G. Avanzini: Milan and Como, Italy Ocular effects of desferrioxamine infusion in uraemic patients on chronic haemodialysis	605
74. H. Zwick, B. Burri and E.S. Beatrice: San Francisco, CA, U.S.A. Vitamin A supplementation effects on photopic and scotopic visual function and measures of vitamin A status	617
75. I. Zucca, N. Aste, M. Piscitelli, M. D'Atri, G. Martini, M. Pau and A. Serra: Cagliari, Italy Some remarks on colour discrimination in psoriasis	627
76. R. Fusco, G. Ambrosio, A. Magli and G. Nieto: Naples, Italy Colour vision and contrast sensitivity in chronic progressive external ophthalmoplegia	631
Author index	637
